PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer skilled in building scalable **MERN** stack applications using **React.js**, **Node.js**, and modern web technologies. Strong problem-solving abilities with **hackathon** experience and a passion for developing efficient, high-quality solutions.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, WebSocket (Socket.io)

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, Vercel, Render

State Management: Redux Toolkit

EXPERIENCE

- Runner-up in multiple hackathons for developing innovative and problem-solving based projects.
- Secured 2nd position in a hackathon organized by GeeksforGeeks.
- Demonstrated strong teamwork, development, and analytical skills in competitive coding and project-building environments.

PROJECTS

NeuroDesk - AI-Powered Productivity Management System

• **Tech Stack:** React.js, Node.js, Express.js, MongoDB, WebSocket, JWT, Tailwind CSS

Key Features:

- Built full-stack productivity app with real-time data sync using WebSocket
 - Implemented JWT authentication and secure user management
 - Developed task management with priority filtering and status tracking
 - Created note-taking, goal tracking, and secure memory vault modules
 - Integrated AI-powered productivity suggestions
 - Designed responsive UI with reusable React components and Context API
- Integrated **third-party** APIs (**OpenRouter**, **Gemini**, **Groq**, **Mistral**) for intelligent suggestions and **PostgreSQL** (Neon) database with secure environment variable management

Resume AI Checker

• **Tech Stack:** Node.js, Express, React, PostgreSQL, REST APIs

Key Features:

- Built a full-stack AI-powered resume analyzer with ATS scoring, job matching, and interview prep
- Integrated multiple AI providers (**Gemini**, **Groq**, **OpenRouter**) with user-configurable API keys
- Implemented JWT authentication, **PostgreSQL** (Neon) database with Sequelize ORM
- Used Adzuna API for real-time job search and matching

EDUCATION

Bachelor of Computer Applications (BCA)

Institute of Management Studies (IMS), Noida

Expected Graduation: 2027

CGPA: 6.5/10.0

ACHIEVEMENTS

- Runner-up in multiple hackathons for developing innovative and problem-solving based projects.
- Secured 2nd position in a hackathon organized by GeeksforGeeks.
- Consistently participated in technical and problem-solving competitions to enhance practical knowledge.
